

Congresswoman Abby Finkenauer
Iowa's First Congressional District

March 17, 2020

Dear Iowans:

As we take action to stop the spread of coronavirus in our state, I want to make sure that Congress is being as responsive as possible to your needs and concerns. Hearing how the outbreak is affecting your family, our businesses, and the community more broadly will drive our work to help keep folks safe and our economy strong.

That's why I am launching a portal on my website for you to weigh in with concerns, priorities, or any other information that you want my office to know about and where help is needed. Your submissions will let me know how to best assist Iowa families in the days and weeks ahead.

Please access this portal at https://docs.google.com/forms/d/1RC1A24_obYGB5Ay0Lc-00xSu2YkDYDwzJXTYQtqV1kw.

We should be looking out for each other right now and taking precautions to protect those among us who might be at risk of getting the virus. I urge everyone to stay informed and use the state's hotline (2-1-1) for any questions. Please know that my office remains open to help Iowans get the help they need through our federal agencies. A coronavirus resource page has also been added to my website, which you may access here: <https://finkenauer.house.gov/coronavirus-information>. Lastly, if you or your loved ones exhibit symptoms, please contact your local health department or the state health department (1-800-362-2736).

Thank you for sharing your needs and concerns with me so that I can work most effectively on your behalf in these challenging times.

Sincerely,

A handwritten signature in blue ink, appearing to read "Abby Finkenauer".

Abby Finkenauer
Member of Congress
